Jim Holmes - Owner

Cape Cod Tree Experts is a locally owned and operated
full service tree care company
serving all of Cape Cod.

Information Sheet

Cape Cod Tree Experts mission is to comprehend, evaluate and implement desired tree work in a professional and timely manner. All inquiries for tree work are returned promptly, any evaluations are scheduled within days. All estimates are free and put in writing at time of sales call. An estimated start date for your tree work is also provided.

- **Tree Removal**, Trees are only removed after all possible strategies to save the tree have been explored, such as cabling/bracing, pruning and large limb removal.
- **Tree Pruning**, is often desirable or necessary to remove dead branches, improve tree structure, enhance vigor or maintain safety and tree aesthetics.
- **Crown Cleaning**, is the selective removal of dead, diseased, broken or weak branches from tree crown.
- **Crown Thinning**, includes crown cleaning as well as selective removal of branches to increase light penetration and air movement through the crown and to reduce the weight of heavy limbs.
- **Vista Pruning**, many homeowners on Cape Cod are in close proximity to the ocean, a pond, cranberry bog, estuary or inlet. Cape Cod Tree Experts can help you optimize this valuable property asset by either creating new water views or maintaining existing ones.
- **Cabling**, wire cables are installed in trees to support heavy limbs, limbs with a weak connection, (crotch), split or decayed crotches.
- **Bracing**, is the use of steel rods in limbs, leaders, or tree trunks to provide rigid support. Bracing is also used to reinforce weak, split, (pictured below), or decaying crotches.

Other Service Offered: Stump Grinding, Brush Mowing, 24/7 Emergency Service, Ornamental & Fruit Tree Pruning, Pest & Disease Control Programs
